Lagos, Nigeria

orcid.org/0009-0003-6045-432X

Chemistry graduate preparing for graduate research in materials science. My interest is in how reduced gravity alters the way materials form, specifically crystal nucleation and growth, solidification, and phase behaviour in low-gravity environments. I completed Arizona State University's four-course Materials Science specialisation in 2026 while teaching Chemistry and running laboratory practicals full time. I am seeking a Master's position in Materials Science or Chemistry as the foundation for doctoral work in functional and space materials.

R E S E A R C H I N T E R E S T S

Microgravity and materials formation. Crystal growth, solidification, and phase transitions under reduced gravity. Functional and energy materials. Electrochemical materials, thermoelectrics, thin films, and materials for solar efficiency.

Porous frameworks. Metal-organic frameworks and zeolites for separation, storage, and catalysis.

Applied and environmental chemistry. Analytical methods and materials for environmental and aerospace applications.

E D U C A T I O N

B.Sc. (Ed.) Chemistry, Biology minor

2018 to 2023

University of Ilorin, Nigeria

Assessed by World Education Services as equivalent to a Canadian four-year Bachelor's degree. Reference B2626NGRYX.

Advanced coursework in Coordination Chemistry, Inorganic Reaction Kinetics and Mechanisms, Radio-Nuclear Chemistry, Organometallic Chemistry I and II, Non-Aqueous Solvents, Environmental Chemistry I and II, Practical Inorganic and Organic Chemistry, and Research Method and Statistics.

Undergraduate research project awarded a distinction grade.

P U B L I C A T I O N

Grace, P. O. (2023). *Validation of Undergraduate and Postgraduate Students' Use of Internet for Academic Purposes in Chemistry Education and Other STEM Related Fields*. University of Ilorin. Zenodo.
<https://doi.org/10.5281/zenodo.21749877>

Survey study of 1,000 undergraduate and postgraduate students across Chemistry Education and STEM disciplines. Instrument design, data collection, and statistical analysis in SPSS with hypothesis testing.

Materials Science for Technological Application

2026

Arizona State University. Four-course specialisation.

Atomic bonding and crystal structure, properties of metals, shape and property control, phase diagrams, and diffusion. Verification at coursera.org/verify/specialization/MVIQIBLWV4UL

Understanding Research Methods

2026

University of London and SOAS University of London

Research design, methodology selection, literature review, and critical appraisal of evidence. Verification at coursera.org/verify/5JLOAEYKGG2L

T E A C H I N G A N D L A B O R A T O R Y E X P E R I E N C E

Chemistry Educator

2025 to 2026

Great 'A' Genesis Academy, Lagos

- Designed and supervised laboratory practicals covering reagent preparation, titration, qualitative analysis, and experimental safety protocol.
- Taught Chemistry across senior secondary levels, building students' capacity to reason through problems rather than memorise outcomes.
- Assessed performance continuously and restructured teaching around the specific concepts students were failing to grasp.
- Integrated PhET interactive simulations and digital instruction tools to model phenomena that could not be demonstrated in the laboratory.

Private Chemistry Tutor

2026 to present

Independent

- Delivers one-to-one IGCSE Chemistry instruction in physical and organic chemistry.
- Diagnoses individual conceptual gaps and builds targeted study plans around them.

Chemistry Teacher, National Youth Service Corps

2024 to 2025

Mbo, Akwa Ibom State

- Taught secondary Chemistry and maintained detailed records of academic progress across multiple cohorts.
- Delivered an invited talk on academic confidence at an all-girls community secondary school.

Teaching Practice

2023

Ifedamola International High School

- Supported Chemistry instruction and laboratory practicals under supervising staff.

ADDITIONAL EXPERIENCE

Virtual Assistant Intern

2025 to 2026

Perennial Pros

- Provided administrative and project support. Authored a campaign proposal for a Lagos state environmental agency.

Water Pollution Awareness Campaign

2023

Team lead

- Coordinated field research and community outreach on local water contamination.

TECHNICAL SKILLS

Laboratory. Practical inorganic, organic, and analytical chemistry. Reagent preparation, titrimetric and qualitative analysis, laboratory safety and management.

Analysis. SPSS, quantitative research design, survey methodology, hypothesis testing.

Instructional technology. PhET interactive simulations, AITeacha, digital learning platforms.

CREDENTIALS

World Education Services ICAP evaluation completed July 2026. Reference B2626NGRYX. Canadian equivalency: Bachelor's degree, four years.

ORCID iD 0009-0003-6045-432X

My degree certificate, academic transcript, and WES evaluation are in the name of Ayinde, which is my maiden name.

Full academic transcript and referee details available on request.
